PREFACE

The **Abstract of Statistics** is an annual publication that presents a wide range of statistics and other information on Belize. It is an invaluable source of information about a great many subjects including population, health, education, unemployment, agriculture, inflation and the environment. This edition generally provides data up to 2005, however, there are a few series that were not updated due to the lack of data at source. If the missing data should become available before the next edition of this publication, they will be published on the department's website.

The Central Statistical Office expresses its appreciation to the many governmental ministries and departments as well as other organizations and persons who very graciously made available some of the information published here. The CSO is also thankful to its staff for their great effort in producing this publication.

Suggestions and comments for improving coverage and presentation of data should be sent to the Chief Statistician at the above address.
